GIGAQUADS OF SCIENTIFIC DATA COPIED BY HACKER

'Landmark Communications' are once again reviewing their security procedures after revealing that their central mainframe has been compromised for the third time in a month, with massive amounts of confidential data being transferred away.

The stolen files contained data from a massive scientific research program, which 'Landmark Communications' had been working on for the past 3 years. Around 416 Gigaquads of data was copied before the intruder disconnected. 'Landmark Communications' will undoubtedly try to discover the corporation behind this theft.

Personal customer data copied by hacker

'Landmark Communications' have suffered yet another embarrassing security breach, today revealing that a massive quantity of private data was stolen from their central mainframe. This system has been targeted repeatedly in recent times.

The computer system stored hundreds of GigaQuads of personal data on all of the corporation's customers. This data is now in the public domain. Over 416 Gigaquads of data was stolen. 'Landmark Communications' tried to reassure the public today, and issued a statement saying they had brought in Federal Agents to try and find the corporation responsible.

Proprietary software source code deleted by hacker

'Landmark Communications' are today boasting their security systems as their file servers suffered yet another complete failure. The company has come under attack on several occasions in the last month by hackers who have yet to be identified.

Upon investigating the damaged computer, the company found that much of their software that was still in development had been deleted, along with all source code and back ups. It was claimed that the revolutionary software would dominate the market once released. 'Landmark Communications' have undoubtedly suffered a large loss here, which could cost the company millions.
